

# Knots

How many different ways can you tie a knot? We are most familiar with the knot we tie in our shoes, but there are dozens of ways to tie a knot. A rope with a knot in it is like a bump in a long road.

Fishermen and sailors are known for using the largest variety of knots. The types of knots they tie depend on the rope or tools they are using. People also make knots to create jewelry, like bracelets and necklaces. Mountain climbers use certain types of knots to make sure they are safe and secure.
