Quick Guide to Administering Smarter Balanced Interim Assessments Remotely

The Smarter Balanced Interim Assessments provide teachers with an additional resource that measures students’ mastery of specific content and skills. Interim assessments are administered on a computer using the same Test Delivery System as the Smarter Balanced Summative Assessments. Typically, students use the Secure Browser to take interim assessments at school.

In the midst of the national health crisis, Smarter Balanced member states will support teaching and learning by allowing teachers to administer interim tests remotely. Students may now access the interim assessments remotely using the DeSSA Secure Browser, AIRSecureTest iPad app, or the Chrome or Firefox web browsers using the special mobile link. (Table 1.)

This document describes how test administrators (TAs) can remotely administer the interim assessments and how students may access and participate in an interim assessment.

The last day to administer interim assessments remotely will be June 30, 2020.

Test Administrators and how to Administer Interim Assessments Remotely

Please refer to the checklist on getting ready to administer Interim Assessments remotely. This is located in the schoology group for remote assessment for Interims.

Test administrators will administer interim assessments at home the same way they would at their schools. Test administrators need a way to communicate with students to provide a session ID and to provide support for students through the login process, including helping them securely find their student ID if they don’t know it.

It is important that the session ID and student ID are communicated using a secure method, such as a classroom management system, as opposed to a non-secure method such as private text messages or emails.

Test administrators should be mindful of the time students are allowed to complete a test. For security reasons, IABs and IACs should be completed in no more than 2 sessions or 1.5 hours for ICAs and 45 minutes for IABs.

Test Administrators Administration Steps

Test administrators should perform the following steps to administer Smarter Balanced Interim Assessments remotely:
1. Access the DDOE Identity Management System (IMS) login page (Figure 1) at https://login.doe.k12.de.us. Use your regular IMS ID and password to log in.

2. After you have successfully logged in to IMS, you will see a list of applications available to you, including DeSSA Math & Reading. Click the DeSSA Math & Reading icon (Figure 2). You will be directed to the DeSSA Portal.

3. Click the Smarter ELA & Mathematics user card (Figure 3). You will be directed to the selected “Welcome” page, which includes links to the available DeSSA applications.

4. The selected assessment page includes links to the available DeSSA applications. To access the TA Interface, select the Test Administration button.

5. Select the test you will be administering. Students will be able to take interim assessments in the Secure Browser, AIRSecureTest app, or the Chrome or Firefox web browsers.

6. Start the test session and securely provide your students the session ID that is generated. This session ID may be used by all students for the session, but when this session is closed a new session ID will be required.

7. After your students sign in and select the test they’re going to take, approve them into the session so that they may start testing.

8. After all students complete the test, stop the test session and log out.

**Signing in to Take an Interim Assessment**

Once you have the required software as outlined above, you are ready to sign in and take an interim assessment.

1. Launch the required software on your testing device.

   If you are using the Secure Browser, the **Student Sign-In** page appears. Skip to step 5.

   If you are using the AIRSecureTest app, the **Mobile Launchpad** page appears. Skip to step 3.

   If you are using the Chrome or Firefox web browsers, continue to step 2.

2. In the URL bar, enter http://mobile.tds.airast.org/Launchpad/ and hit enter on your keyboard. The **Mobile Launchpad** page appears.

3. From the drop-down lists, select your state and assessment program.

4. Select OK. The **Student Sign-In** page appears.
5. Enter the following information:
   a. In the First Name and Student ID fields, students enter their first name and student ID.
   b. In the Session ID field, students enter the session ID provided by their test administrator. This ID is created by test administrators and can change throughout the day. NOTE: students should have their ID. If not, teacher must provide it in a secure way.

6. Students select Sign In. The Is This You? page appears.

7. If all the information on the Is This You? page is correct, select Yes to proceed. The Your Tests page appears.
   If any of the information is incorrect, notify your test administrator before proceeding.

8. From the Your Tests page, select the interim assessment you will be taking.
9. The student’s request is sent to the test administrator and the student is taken to the *Waiting for Approval* page. The TA must approve the student for testing before the student can proceed. Once the TA approves, the *Instructions and Help Page* appears.

10. To start the test, select **Begin Test Now**.

    Test questions will appear on the screen. Students can test normally as if they were in school. Test administrators will be able to remotely monitor their progress throughout the test.
